HOW TO UNDERSTAND SPIRITUALLY LOST PEOPLE AND GIVE THEM DIRECTIONS TO GOD

LOSTOLOGY LAB:

Read Luke 19:10, John 3:16-17, and Matthew 9:9-13

1. Let's start our time out with an honest self-evaluation: what value do you place on spiritually lost people? What do your actions (what you do and don't do) reveal about your answer? Do they line up? (why or why not?)
2. What reasons do you use with yourself or with others to explain why sharing your faith really isn't a priority in your life?
3. Do you find it easier to talk about evangelism and learn about evangelism than it is to actually do it? Why do you think this is the case?
4. Do your values for the lost line up with God's values for the lost? Do you want God to change your heart and your values? Pause and take a few minutes to take that request to Him right now...if you are in a small group setting, take some time and pray for each other before moving on to question 5.
5. If God changed your value system with regard to spiritually lost people, how would that change the way you go about your daily life? (What would or should change? Be very practical.)
